WatSmart™ Business Continuity

### Solutions

The Ultimate Firewall (TUF)™

“WatSec provided us with a professional security audit indicating potential threats that could arise as we expand our business.”

-Y. Morin, Vi-max Co., Vice President

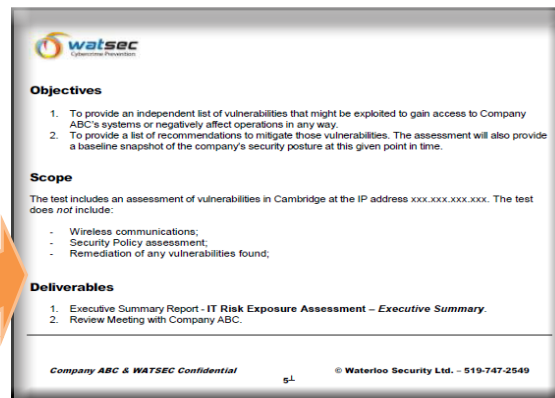

### We do Security. You Focus on Your Bottom Line.

DeflectorShield™ Internal is designed to incorporate all aspects of DeflectorShield to provide your business with a powerful and complete IT security assessment.

In addition to assessing external threats, DeflectorShield™ Internal examines your internal security infrastructure and enables your organization to achieve maximum security coverage.

### Assessing Your Exposures, So You Don't Have To.

DeflectorShield™ Internal assesses your organization's internal systems for hardware, software and network weaknesses which could allow a malicious party or software program to threaten your organization.
